

How we can help you

Are any of your staff facing difficulties at work due to new or existing disabilities, mental health issues or medical conditions?

If so, we can help by providing your Employee on-the-job support, to ensure they are able to sustain fulfilling employment.

We are creating a different kind of future.

A future where everyone has the opportunity to contribute to every part of life.

A future where everyone has the opportunity to secure and maintain fulfilling work.

We exist to ensure people of all abilities are empowered to work.

Through high-quality on-the-job training, co-worker support and workplace modifications, we will work with you to find and keep the right job.

Changing lives through the power of employment

What is Work Assist?

Sometimes situations arise where your employees face difficulties at work and require support to better manage and cope in the workplace.

Work Assist is mutually beneficial to both your self as an Employer and to your Employees. The service is delivered by our highly experienced staff at **no cost** to either party.

Work Assist ensures that your Employee is supported to maintain long-term employment and that you are able to retain valuable Employees; saving the cost and time required to hire and train new Employees.

How it works

Our team will meet with you to identify the barriers preventing your Employee from thriving in their role.

We will then work with you and your Employee to provide assistance and advice for a minimum period of six months.

Ways we can help:

- Occupational therapy
- Counselling
- Workplace modifications
- Job design
- Workplace review and design
- Skills development

Once we understand the challenges your Employee is facing, we will co-design strategies with you and your Employee to get things back on track quickly.

To be eligible for this program your Employee must:

- Have a diagnosed disability, or long-term health condition
- Be currently employed for a minimum of eight hours per week, and not studying full-time
- Have worked an average of eight hours per week for 13 consecutive weeks
- Be an Australian resident or aged between 14-65
